GDPR and Sentinel update

- Matchtech and Resourcing Solutions are also combining their Sentinel training and Assessment procedures, to become more efficient and productive.
- While we have a legal commitment to GDPR regarding your personal data, as part of your competency management, we will need to pass on your name and contact number to our training providers or training broker to arrange your training and assessments.
- If you have any queries or questions regarding your Sentinel / Railway competencies then in the first instance it is advised that you talk with your consultant, and then they can escalate it to the group compliance and training team.

Training and Competency Management

- Resourcing Solutions and Matchtech are committed to assist you with the renewals and updating of your competency cards. Occasionally we will need to share your personal details with our training provider partners to maintain your competency. These training companies could contact you directly to confirm the booking and give you important details for attending the course.
